

JORGENSEN

SUSTAINABILITY POLICY

Jorgensen Ltd's vision is to become a national provider of integrated property services to social housing, educational facilities and public buildings.

In providing this service, we will also help develop communities in a wider way by delivering initiatives that contribute to socio-economic and environmental sustainability, nurture social inclusion and help to engender a real sense of lasting community spirit.

Environmental

In order to monitor our performance and continual improvement we have set the following environmental objectives:

- Minimise the amount of waste we produce and seek to avoid the landfilling of waste wherever possible.
 - Reduce our carbon footprint through:
 - The reduction of fossil fuel usage.
- The use of low embodied carbon products and technologies.
 - Increase our use of sustainable resources by:
 - Promoting the use of timber from sustainably managed forests.
 - Encouraging the use of materials with high recycled content.
- Identifying and where practicable avoiding the use of materials with high environmental impacts.
- Engage with local stakeholders and invest in proactive community initiatives.
- Implement and maintain an environmental management system through which we will:
 - Maintain compliance with relevant environmental legislation and other commitments.
 - Conduct activities with regard for the environment and introduce measures to prevent pollution.
 - Provide sufficient and appropriate environmental training to all our employees.

Economic

Jorgensen Ltd will:

- Respect the law
- Honour its internal policies
- Ensure that all its business operations are legitimate
- Keep every partnership and collaboration open and transparent

Jorgensen Ltd will promote:

- Safety and fair dealing
